Notes: <sup>@</sup> Estimated based on programme-specific drug abuser statistics collated by the CRDA.  
<sup>\*</sup> The figures include new admissions and re-admissions. Re-admission refers to the numbers of patients who had not attended methadone clinics for consecutive 28 days or more and subsequently came back to use the services during the reporting period.  
<sup>+</sup> The figures denote the combination of new admissions and re-admissions during the period.  
<sup>#</sup> New case / first attendance (include alcoholic abusers)
